**Negative Eugenics**

- decrease frequency of deleterious genes
- 2 - 2.5% of children born in the US are markedly defective - mentally or physically
- Two reasons for prevalence of deleterious genes
  - although deleterious in homozygous condition, may produce hybrid vigor in heterozygous
  - frequency of deleterious genes is now high because natural selection has been artificially reduced

*The International Jew:  
 The World's Problem*

"Among the distinguishing mental and moral traits of the Jews may be mentioned: distaste for hard or violent physical labor; a strong family sense and philoprogenitiveness; a marked religious instinct; the courage of the prophet and martyr rather than of the pioneer and soldier; remarkable power to survive in adverse environments, combined with great ability to retain racial solidarity; capacity for exploitation, both individual and social; shrewdness and astuteness in speculation and money matters generally; an Oriental love of display and a full appreciation of the power and pleasure of social position; a very high average of intellectual ability."

**THE LITERARY DIGEST**  
December 2, 1922

In the Supreme Court opinion, Mr. Justice Sutherland was careful to point out, "there is not implied any suggestion of individual unworthiness or racial inferiority. These considerations are in no manner involved." Continued the Justice in this, his first opinion delivered from the Supreme bench:

"In all of the naturalization acts from 1790 to 1906, the privilege of naturalization was confined to white persons (with the addition in 1870 of those of African nativity and descent), altho the exact wording of the various statutes was not always the same. The Federal and State courts, in an almost unbroken line, have held that the words 'white person' were meant to indicate only a person of what is popularly known as the Caucasian race. With the conclusion reached in these several decisions we see no reason to differ.

"It is urged that we should give to this phrase ('free white persons') the meaning which it had in the minds of its original framers in 1790, and that it was employed by them for the sole purpose of excluding the black or African race and the Indians then inhabiting this country. It may be true that these two races were alone thought of as being excluded, but to say that they were the only ones within the intent of the statute would be to ignore the affirmative form of the legislation. The provision is not that negroes and Indians shall be excluded, but it is, in effect, that only free white persons shall be included. The intention was to confer the privilege of citizenship upon that class of persons whom the fathers knew as white, and to deny it to all who could not be so classified."

**JAPANESE BARRED FROM CITIZENSHIP**

NOVEMBER 13 was an unlucky day for the Nipponese who like the climate, opportunities, and other good things to be found in the United States, for on that date the United States Supreme Court decided that Japanese can not be naturalized in the United States and can not become citizens of this country. The reason, set forth in two opinions handed down by Justice Sutherland, is that Japanese people are not of the "white" or Caucasian race, and therefore are not entitled to citizenship. The new ruling, it is said, will affect not only Japanese aliens in this country, but also all Japanese who by reason of Army or Navy service with American forces during the World War were granted citizenship papers. "This is indeed a staggering blow," admits the Japanese editor of the Salt Lake City *Rocky Mountain Times*, one of the score or more Nipponese papers published in this country which were asked by *The Digest* to send in their opinion of the Supreme Court ruling by telegraph.
